

Options & More Info

Broadway Pops

Our Broadway Pops program consists of popular Broadway hit songs arranged for full symphony orchestra, and can be modified as far as timing and/or titles to fit your exact needs. A sax section of 4 players will be nice, but at least 2 saxes are required. A male and/or female vocalist is also required along with a conductor somewhat knowledgeable of these types of arrangements. If you need a sax quartet, singer, or conductor, we have a very reliable list to choose from so let us know how or where we can help. (Half programs of 10 charts are available at half price upon request)

Please do not hesitate to contact us via phone or email if you have any questions.
